¹ The latest mill to achieve RSPO certification is PT Globalindo Alam Perkasa (GAP) in June 2020. The plantations supplying GAP were previously RSPO certified, therefore the total RSPO certified area remain unchanged from FY2019.

² Overlaps in HCV and HCS areas are reflected as HCV figures.

³ 'Others' include steep area, wildlife corridors, and riparian buffer zones not identified by HCV and HCSA assessments.

⁴ BOD and COD figures for FY2020 refers to RSPO-certified mills.
